

WELCOME TO THE FINAL NEWSLETTER OF IcARUS!

Message from the coordination:

"The **IcARUS** project aimed to foster a culture of open and informed innovation within urban security policies. Mission accomplished: with the support of academics and design thinking experts, the six pilot cities developed creative and relevant tools to better understand the needs of communities and respond to them. I would like to thank all the partners who have worked on the project during these 4 years, it has truly been a remarkable collaborative endeavor. We look forward to taking this ahead: as the **IcARUS** project concludes, its insights will live on!"

Elizabeth Johnston, Efus' Executive Director

THROWBACK TO THE IcARUS JOURNEY

A Journey Concluded, A Legacy Begun!

As the **IcARUS** project concludes, it leaves behind a significant legacy in urban security. The project's four-year journey saw the development of innovative tools, strategies, and collaborations that have transformed how cities address complex security challenges. This article reflects on the key milestones and the enduring impact of **IcARUS**, highlighting how its outcomes will continue to shape safer urban environments across Europe.

THE IcARUS TOOLS FOR CITIES

Preventing juvenile delinquency: The Lisbon tool

Jovem Design Lisboa (JDL) offers a design-oriented approach to involve young people in community safety. It aims to enhance their self-worth and confidence, provide practical life skills, and improve their relationships with the police and local community.
